

1) Kindly add a list of figures between "SUMMARY OF THE INVENTION" and "DETAILED DESCRIPTION OF THE INVENTION" as follows:

DESCRIPTION OF THE FIGURES

Fig. 1 shows an embodiment of the present invention with an alkyl amine.

Fig. 2 shows an embodiment of the present invention where the alkyl amine is an either amine.

2) On page 5, line 18, change:

"Figure 1 Shows synthesis of a typical polymer of the type described by this invention. R may be any alkyl or alkoxy group of between around 6 to 22 carbons. R' and R" can be the same or different"

to:

"Fig. 1 shows synthesis of a typical polymer of the type described by this invention using an alkyl amine."

Fig. 2 shows an embodiment similar to Fig. 1 where the
alkyl amine is an either amine. R may be any alkyl or
aloxyl of between 6 to 22 carbons. R' and R" can
attached to the ends of the structures shown in
parentheses in Figs. 1-2. R' and R" can be the same
or different ..."

No new matter has been added. Figs. 1-2 are adequately
described in the text. R' and R" are described in the text
and claims, and there are no other positions that make any
sense.
